

BGC Level 2 Now Available!

We are excited to introduce **Level 2** of the Bilingual Grammar Curriculum (BGC)—a groundbreaking continuation of our ASL-first approach that builds on the strong foundation established in Level 1. Designed for Deaf and Hard-of-Hearing students, Level 2 expands essential language skills in **both ASL and English**, ensuring students gain deeper grammatical awareness and fluency in both languages.

What's Inside BGC Level 2?

The **BGC Scope & Sequence for Level 2** takes grammar instruction to the next level by:

Enhancing sentence complexity – Teaching compound subjects and predicates, proper conjunction usage, and sentence diagramming.

Deepening noun and pronoun concepts – Addressing singular/plural forms, semantic relationships, and proper usage of pronouns in ASL and English.

Expanding adjectives and adverbs – Strengthening descriptive skills by incorporating comparative forms, intensity markers, and non-manual signals in ASL.

Strengthening verb structures – Developing mastery in predicate types, transitive/intransitive verbs, and negation strategies in ASL.

Building tense awareness – Helping students understand past, present, and future markers in both languages to improve storytelling and written communication.

With **Level 2**, we've combined what traditionally would have been two levels (2 & 3) into a powerful single curriculum, making it even more impactful. Educators across the U.S. and Canada are already seeing transformative results with this new level!

Ready to Explore BGC Level 2?

If you're an educator using BGC Level 1, now is the perfect time to unlock Level 2 and continue the journey with your students. Want to try it out? [We offer trial preview licenses](#)—reach out, and we'd love to help!
